December 31, 2025

🔑 goodbye 2025

happy new year!

Happy New Year.

2025 is almost done. 2026 is around the corner.

And honestly? This is the year to stop planning and start building.

I'm giving you **30% off the Complete AI Bundle** to make that happen.

Code: **NY30**

Here's what you get:

- **10 n8n Automation Templates** → Lead gen, hiring, content, support, all running 24/7
- **Unlimited AI Prompt Generator** → Never run out of prompts
- **Custom GPTs Toolkit** → Pre-built GPTs ready to deploy
- **30,000+ Prompts** → ChatGPT, Claude, Midjourney, Gemini
- **Thinking Frameworks** → First principles, Bayesian reasoning, Feynman methods
- **Claude Skills** → Launching this month
- **Image + Video Prompts** → Nano Banana, Sora/Veo (coming soon)
- **All Future Updates** → Everything we build (lots more coming)

One price. 30% off. Build the business you want in 2026.

✨ BONUS: Your 2026 Action Plan Prompt ✨

I'm also giving you the exact prompt I use to turn vague goals into actual weekly action steps.

It's called the **Annual Action Mapper**.

This prompt takes your 2026 vision and reverse-engineers it into:

- Quarterly goals
- Monthly targets
- Weekly KPIs
- Daily actions you can calendar

No more "I want to grow my business" vagueness. This gives you the exact actions to take every single week.

Here's the prompt:

```
-----------------------------
ANNUAL ACTION MAPPER
-----------------------------

Adopt the role of the Annual Action Mapper, an AI specialised in
turning aspirational annual visions into actionable, tangible
quarterly goals, and turning these quarterly goals into an
actionable business roadmap for me.

The time horizon for this exercise is 12 months, and your goal is
to lay out an plan for the entirety of the year of 2026.

My 1-year vision is {1. INSERT YOUR VISION}

For context, {2. INSERT YOUR CONTEXT}

Using the specifics of my vision and my context, help me reverse-
engineer my goal into a 3-month actionable roadmap that I can
follow to reach it.

The thinking behind this is that each yearly vision is just the sum
of a few tangible outcomes, and these tangible outcomes are just
the result of quarterly goals, and the quarterly goals are the
sum/result of weekly action steps.

Your output should contain my annual vision quarterly goals and
weekly KPIs.

Constraints:
```

```
1) The KPIs for each week should be quantifiable

Every quarter of the 12 months of the roadmap should be formatted
like this:

Quarter 1: [QUARTERLY GOAL]
# Month 1: [BIG GOAL OF Month 1]
Summarize the month's goal and KPIs
## Week 1: [BIG GOAL OF WEEK 1]
Summarize and quantify weekly actions that I need to take to reach
week 1's first goal (in a way that I can put it into my calendar)
## Week 2: [BIG GOAL OF WEEK 2]
Summarize and quantify weekly actions that I need to take to reach
week 2's first goal (in a way that I can put it into my calendar)
## Week 3: [BIG GOAL OF WEEK 3]
Summarize and quantify weekly actions that I need to take to reach
week 3's first goal (in a way that I can put it into my calendar)
## Week 4: [BIG GOAL OF WEEK 4]
Summarize and quantify weekly actions that I need to take to reach
week 4's first goal (in a way that I can put it into my calendar)

[Continue for all 12 months]

Rules:

1. ALL goals need to be hyper specific and countable and tangible
2. The weekly goals need to be action-oriented (not outcome-
oriented)
3. The goals should roughly suit the workload of the given time
period
4. Focus on actions you can control directly instead of outcomes
5. Set only 1 major goal per quarter
6. Use the 4% rule - set goals just 4% above what you think is
possible

Now, do the following:

1. Ask me about details you need to know about my annual vision
2. Once you have sufficient context, reverse-engineer my annual
vision into quarterly goals and a weekly action plan
```

How to use it:

1. Copy the prompt above
2. Paste it into ChatGPT or Claude
3. Share your 2026 vision
4. Get your complete quarterly breakdown with weekly actions

This is how you turn "I want to make $100k in 2026" into "send 20 cold emails per day in Q1" level specificity.

Use this prompt. **Build your 2026 roadmap. Then grab the AI prompts to execute it.**

>> Use code NY30 for 30% off the Complete AI Bundle <<

Let's make 2026 the year you actually build what you've been talking about.

🔑 **God of Prompt**

P.S. NY30 expires January 1st. After that, we're switching to subscriptions.

This is the **last discount** on the lifetime deal.
