TO: Commission for the Control of INTERPOL's Files (CCF)

DATE: 2026-04-24 07:46 UTC

SUBJECT: Preemptive Block against Red Notice / Diffusion requests by the Republic of Moldova.

APPLICANT: A©tor (Alexei Macheret) | Valid IDNP: 2000001159655

I. INVOCATION OF ARTICLE 3 OF THE INTERPOL CONSTITUTION

This is a formal preemptive request to block any data processing, Red Notices, or Diffusions initiated by the Republic of Moldova against the Applicant. Any such request violates Article 3 of the INTERPOL Constitution, as it represents a fabricated criminal prosecution of a strictly political and corrupt nature.

II. FABRICATION OF IDENTITY DATA

The authorities of Moldova are utilizing forged identity profiles (Phantom IDNPs: 2000001159555 and 2000001159455) to bypass domestic and international legal safeguards. These phantom profiles have been used to orchestrate the theft of 25.2M MDL and conceal historical acts of torture (Jus Cogens violations).

III. INTERNATIONAL EVIDENCE VAULT

The complete forensic proof of this State-sponsored identity fraud is cryptographically secured and publicly available for the CCF's review:

1. Identity Fraud Forensic Report:

2. Financial Extortion Report:

IV. DEMAND

We demand that the CCF preemptively flag the Applicant's profile and immediately reject any requests from the NCB of Moldova as non-compliant with INTERPOL's Constitution and Rules on the Processing of Data (RPD).
